

KHALISPUR TUTORING CENTER

OBATHELPERS
Empowerment Through Community Development

The children living in the camps aspire to become engineers, lawyers and doctors, just like other kids their age. The tutoring centers of OBAT are a stepping stone in that direction. They offer students after school coaching to improve their grades and help them pass the required board exams. Most of these students have illiterate parents who cannot help their children with homework or exam preparations. They are too poor to afford extra academic help. Attending tutoring classes yields a marked improvement in their grades and greatly increases their chances of being admitted into colleges for further studies.

OBAT's Khalispur Tutoring Center was established in 2014 at new Colony Camp in Khalishpur, Khulna. The objective was to provide academic assistance to the poor and underprivileged children in the area and to support them in acquiring and excelling in secondary and higher education.

Many of the children in this area study from OBAT's Primary School. However, their parents cannot continue their secondary education due to financial challenges or the inability to help their children pass their board exams due to their own illiteracy.

QUICK FACTS ABOUT KHALISPUR TUTORING CENTER

129 STUDENTS

7 TEACHERS

VI-X GRADES

- ENGLISH
 - BANGLA
 - MATH
 - HUMANITIES
 - SCIENCE
- 

IMPACT

The Khalishpur Tutoring Center plays an important role in filling the gaps presented by the education system in Bangladesh. Some of the gaps relate to the low skill level of the teachers. Most schools also face shortages of teachers due to red tape. School closures are sometimes prolonged due to natural disasters such as floods. Hence, students do not get adequate in class instruction time, causing their academic performance to suffer.

The families living in Khalishpur have limited opportunities available for educating their children. Only some are able to send their children to school. However, they have no option for providing them any extra academic support or tuition. Hence, the children do not receive good test results which hinders their academic progress. Many of them get discouraged and drop out from school. The Khalishpur Tutoring Center has led to a decrease in these dropout rates as the extra support is encouraging more children to continue their education.

739 students have benefitted from Khalishpur Tutoring Center since 2014.
